

If you were raped
by aliens and forced
to carry multiple
pregnancies in the
name of "species
repopulation" would
you rather just go
extinct?

Zoocaptors
"artificially
inseminate"
imprisoned animals
in forced breeding
programs.

These behaviors are
never displayed in
nature, only by
animals in captivity.

Signs of Zoochosis:
- Pacing
- Bar biting
- Overgrooming
- Self mutilation
- Rocking, swaying

Millions of dollars
spent on propaganda
have successfully
convinced the masses
that this is
"conservation".

Zoos and
aquariums
are for
profit
prisons.

YOU ARE
NOT A
PRISON
ABOLIT
IONIST

Would a prison
abolitionist buy
tickets from
CoreCivic to tour
their detention
camp?

You want to see the
animals, but the
animals don't want
to see your stupid
faces.
